I love being responsible and working in a team. I want to work on challenging projects and put my best foot forward in order to make them succeed. My technical and managerial education coupled with my passion for travelling and my desires to experience new cultures, working methods and know-how, make me seek managerial positions abroad. For four years I have been gaining practical experience in the mobile industry with a wide range of different responsibilities and key skills. Rigorous programming and enhanced designing skills as SW Designer; analytical and technical expertise as Technology Expert; high communication, presentation and organisational competences as Sales Support; and multiple-site / multiple-project management skills as Team Leader, Scrum Master, Project Manager and Technical Project Manager. I love managing projects and I love leading teams. Quick-learner, self-confident and flexible, combined with my interpersonal and communication skills, I am the perfect candidate to be easily integrated in a team working on complex projects.

## Main Skills and Competences

Competency areas	(Technical) Project Management, Team Leading, Mobile Software Development
Operating Systems	LiMo 4, Nokia OS (Series 40), Symbian OS (Series 60), Windows and Linux
Project Management	PRINCE2 Practitioner, Full project life cycle, High budgets, Multi-organisational projects Risk / Issues / Change / Quality / Stakeholder Management

Testing & SCM	Unit Testing (JUnit), Basic Acceptance Testing, Functional Testing, SVN, Perforce, CVS, Mercurial
Fluently written and spoken	English and French

## Career Highlights

- Managed and led multiple site projects (standalone) as well as multiple organisation projects concurrently running in a program. Budgets from £90k to > £1m. Teams from 8 to 20+ people.
- Tracked complex requirements in a difficult program environment and successfully managed discussions between multiple stakeholders, working to tight deadlines whilst maintaining a firm understanding of project status throughout.
- Established team visibility and communication processes between restructured teams from different business units
- Applied and enforced Scrum processes as Scrum Master by assisting my PM in the daily management of the project (S40 J2ME)
- Successfully managed and delivered S60 / Qt R&D project in a chaotic environment with human resource issues

## Professional Experience

2010 -2011 | LIMO FOUNDATION

[www.limofoundation.org](http://www.limofoundation.org)

The LiMo (Linux Mobile) Foundation is an organisation aiming to establish a Linux-based operating system for mobile devices. It was founded in January 2007 and has more than 50 member organisations. The founding members are Motorola, NEC, NTT DoCoMo, Panasonic Mobile Communications, Samsung Electronics, and Vodafone.

Technical Project Manager (Contract)

London, U.K.

Nov 2010 to Jun 2011

Responsible for project managing the Platform Engagement Program and evaluating technical deliveries, I worked in collaboration with senior colleagues within the Foundation headquarters, key stakeholders within the Membership base and selected outsource partners to manage and engage Member participation and evaluation in the LiMo Platform source base. I also supported the LiMo Architecture Steering Council (ASC) and the LiMo Program Management team on other projects.

- Planned, managed and evaluated deliveries of the Platform Engagement Program
- Project management and technical evaluation of SDK projects and deliveries from contributing Member companies.
- Coordinated and tracked bug/issue reports.

- Supported the ASC with the organisation and co-ordination of Specification and/or Compliance focused Task Forces.
- Helped develop the evolution of Platform Specification and Compliance Programs following resolutions/proposals and policies.
- Ran face to face ASC and ad-hoc meetings and assisted in compiling presentations relevant to each council.
- Worked with distributed global development teams from multiple companies.
- Tools: MS Project, Word, Excel, Powerpoint & Outlook; Eclipse, Bugzilla, SVN, LiMo SDKs on Windows and Ubuntu

## 2010 NOKIA CORPORATION

[www.nokia.com](http://www.nokia.com)

The company is one of the world's top mobile manufacturers, headquartered in Espoo, a city neighboring Finland's capital Helsinki. Its business is divided primarily into four divisions: devices (mobile device manufacturing), services (multimedia Internet services), market and solutions (R&D, sales, and distribution), and NAVTEQ (digital map data and content).

**Technology Expert** (Contract)

Espoo, Finland

May 2010 to Nov 2010

Technical support tasks in **Java ME** within the **Forum Nokia & Developer Community** business unit, mainly on **Series 40** platform, for Nokia's customers, 3rd party developers, API developers, JDL team and internals. The technologies involved were Java and Series 40 mainly but also S60 and Symbian^3, the tools being Forum Nokia's website, Eclipse, Netbeans, MS Suite, Salesforce and Nokia's SDKs.

- Third party developers and customers technical support through communication, testing, analysis, bug fixing and advices
- SDK & Documentation development support via programming, testing, reviews and reports in collaboration with API and SDK developers as well as Java Developer's Library writers. Writing of technical wiki articles as well within the FN.
- Forum Nokia Projects technical support via development and bug fixing, code reviews, code analysis and optimisation.

## 2007 - 2009 IXONOS PLC

[www.ixonos.com](http://www.ixonos.com)

Subcontractor of Nokia, this Finnish ICT service company of around 1000 people creates innovative solutions for mobility, social media and digital services. The company's services range from concept design, consulting and project management to software development and maintenance.

**Project Manager** (Contract)

London, U.K.

Jul 2009 to Nov 2009

**Sales support tasks** with the Sales Director to set up a front office in London. The goal was to find at least one project and start working on it as **Project Manager**. Unfortunately, due to the market conditions, no deal was finalised before the end of my contract in November. It was however a great experience involving a lot of communication and meetings and requiring very good organisation and customer facing skills.

- Research of customers and projects with the Sales Director via an intensive communication and numerous meetings
- Research of partners via Internet and private companies
- Meeting technical support, technical presentations and reports handling
- Information gathering and documentation writing

**Scrum Master / SW Designer**

Jyväskylä, Finland

Feb 2009 to Jul 2009

**Project Manager / Team Leader**

Jyväskylä, Finland

Dec 2008 to Feb 2009

**SW Designer / Interim Team Leader**

Jyväskylä, Finland

Apr 2008 to Dec 2008

**SW Designer** (Trainee)

Jyväskylä, Finland

Mai 2007 to Oct 2007

## 2005 ORIENTAL SHIP ADVERTISING (东方船广告)

**TV/CINEMA Advertisement Designer** (Trainee)

Nanchang, China

Mar 2005 to Jun 2005

## Education and Training

2011	PROJStudy in London (U.K.)	PRINCE2 Practitioner
2005 – 2008	I.M.E.R.I.R. in Perpignan (France)	MSM / MScIT
2003 – 2005	University of Technology in Le Puy-en-Velay (France)	DUT CompSc & CGI
2000 – 2003	Jules Ferry High School in Roanne (France)	Baccalauréat Scientifique

## Personal Interests

Amateur photographer, my passion is to travel and experience new cultures. I like playing and listening to music as well as practicing sport, especially team sports like basketball and football. Besides that I enjoy social activities and play games like chess. I've got a real interest in mobile and Internet technologies, online communities, social networking and free sharing. Finally I'm also very interested in stock exchange and international business.
